Company introduction

“ CEO Greetings ”

JungWoo Pharm Co., Ltd., who has walked only one path since its foundation in 1982, specializes in the research, development, and producing oriental medicines, herbal medicines, and health functional foods, and based on 36 years of know-how, we are the pharmaceutical company that is pioneered the future of oriental medicine industry through modernization and scientification of traditional medicines. We have GMP plant certified by Ministry of Food and Drug Safety in 2017 with a land of 3200 pyeong and a floor space of 2500 pyeong in Asan, Chungcheongnam-do, Republic of Korea. We contribute to improvement of national health by producing various oriental medicine and health functional foods, including 56 kinds of oriental insurance products, 80 kinds of oriental granules, and 60 kinds of general pharmaceuticals and health functional foods, and we are developing innovative natural medicines and achieving our vision of entering the world.

We are leading the development of new medicine using natural materials, and in order to develop new drugs for osteoarthritis treatments and skin diseases that enter clinical IIb, we have internal capabilities to study extraction method of herbal drugs, and to carry out the clinical phase after the efficacy test.

Based on mutual trust between management and employees, we are committing to advance our corporate vision to become a world-class herbal medicine global company by promoting capacity building throughout the enterprise to become the best expert in our respective tasks and by producing the best medicine that everyone can trust. We will try to grow into a world-class herbal medicine R&D pharmaceutical company.
